

Personal Development Workshop ~ Join us!

First Tuesday's 9 – 11 am ~ Feb, April, June, August, October & December

Improve Your Communication Skills with New and Existing Business Clients through the **Color Code Personality Assessment**

What Makes People Tick?

The **Color Code Personality Assessment** is unique for several reasons. First, it goes deeper than mere personality - it identifies Motive - *why you do what you do*. Secondly, the Color Code is easy to use and implement. Rather than having to memorize a string of letters or numbers like some assessments, the Color Code uses colors to represent Driving Core Motives.

What You Will Take Away?

After completing the personality assessment and development training:

- **Understand the four core personality types**
 - **Discover how to motivate others**
 - **Read people easily and accurately**
- **Identify strategies for communicating more effectively**
- By upgrading to the full assessment – receive a 35 page extensive report with an action plan

Register to Attend; Seating is Limited!
